## Friends of Seedtime,

### Things were normal ... until they weren't

(Oh yeah, I guess that's all normal in Haiti)

Frantz was on his way to a small countryside church outside of Port-de-Paix, Haiti. It was July 3rd and there were 7 students waiting for a two day discipleship Bible study.

Mud made getting to the church difficult. So the church sent a donkey to carry Frantz.

He arrived to find 33 students from 5 churches in the zone.

Frantz spoke about how to show faithfulness to God through obedience to the smallest things they are given to manage.

**Luke 16:11** So if you have not been trustworthy in handling worldly wealth, who will trust you with true riches?

Several had testimony of failing to manage their money properly and they shared a bit about the crisis it created.

Several admitted to not knowing **any** guidance was offered in the Bible.

We are discipling students... on their way to "true riches".

After a 8am to 4pm class, the church came back for a general evening worship service. One leader used our class materials to preach from.

Members found a bunch of voodoo medicine bottles and voodoo dolls surrounding the church. Frantz said the members didn't finish until midnight as they gathered and burned the voodoo articles.

It was a big day for Frantz and the community he visited. He was pretty pumped up for the Lord when he spoke to us.

-----  
The life changing word of God is taught in Haiti  
and you have and can again,  
help make it happen.

Frantz is forever talking to Pastors and leaders to introduce our Bible study. It gets messy and changes often, so be flexible as we step out to disciple folks.

We are always looking for the encouragement of those who would walk with us.

**Thank you for walking with Seedtime and Harvest in ministry!**
