## Friends of Seedtime,

### Seeding Time in Haiti Continues

Many things remain a struggle in Haiti. Gangs still run much of the country. Elections are nowhere in sight. Gasoline is about \$8usd/gal. UN troops are promised but not arriving.

**But the door continues to be open for Seedtime** to bring God's Word. Make no mistake, week in and week out Frantz Pierre Louis is getting regular airtime on several FM radio stations in Haiti and in churches like the Pentecostal church of Port-de-Paix and Manacee FM Radio pictured below.

Right after planting we're looking for a sign of growth, for sprouts to emerge. Too early? It must be too early. We get impatient. With God all things are possible, but alas, we only get to see the planting right now.

We're glad for the multiple invitations for FM radio and churches. Frantz keeps busy planting. He is hoping to get more long term Bible studies scheduled given the number of short format teachings he's had recently.

In case you are not aware, the Haitian churches and radio stations do not pay Frantz for **any** of his work. Frantz is paid for his work thru the donations made to Seedtime by folks like you.

By the grace of God, Seedtime keeps discipleship training going in Haiti. We ask you to be mindful of this work as you consider your missions offering this season.

**Seedtime shipped Frantz two more boxes filled with Bible study materials along with a few small Christmas gifts for Frantz and his family. It will probably arrive in January but he will be grateful for the help any time it arrives.**

**Thanks for walking with Seedtime and Harvest!**

### Disappointed?

**ivoterguide.com**  
didn't have candidate information for your city? It's certainly possible.

Every Federal election was covered *but not all* lower races. Those cities that did get attention got *very thorough coverage*.

We applaud the vast improvements made this year and pray for more cities to be added. Thank you American Family Association for spearheading improvements for 2023!

Contributing or volunteering more is an option for all of us until every race gets full coverage.
